Introduction of “Casting Resin”

Curing Temperature	Line up	Properties	Applications
Heat Curing Type 80 to 150 °C	TCG1100 Series	Flame Retardant type UL-94 Resisted	High voltage Transformer e.x. Fry-back Transformer
	TCG1600 Series	Thermal Resistible type	High voltage Transformer e.x. Ignition coil
	TCG1800 Series	Flexible type	Electrical Module Parts e.x. Substrate of Ceramic
	TCG1900 Series	Low Thermal Stress Low C.T.E. type	Heavy Electric Machinery e.x. Transformer, Insulation spacer
	TCG5000 Series	Low Temperature Short Time Cure	Electrical Module Parts e.x. Substrate of Ceramic
